7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

Article of the Convention { Article 8th.—“ With regard to the Trade in Opium, it is above referred to, } “ agreed between the High Contracting Parties, that at each of the Periodical Sales of that Article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the Persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed Three Hundred Chests in each year, and the price for the same shall be determined by the average rate in which Opium shall have been sold at every such Periodical Sale, it being understood that if the quantity of Opium applied for at any one sale shall not be taken on account of the French Government by the Agents of His Most Christian Majesty, within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the Three Hundred Chests herein before mentioned, the requisition for Opium as aforesaid, are to be addressed to the Governor General at Calcutta, within thirty days after notice of the intended Sales shall have been published in the Government Gazette.”

Medical Topography of Calcutta,

BY JAMES RANALD MARTIN,

Presidency Surgeon and Surgeon to the Native Hospital.

PRINTED BY ORDER OF GOVERNMENT.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—From the *Medical-Chirurgical Review*, No. 57, for July, 1838.

¶ 2. Malles Est. Seven Officers have been promoted to the Rank of Major (General's Regimental Rank is that of Lieutenant Colonel).

¶ 2. We have adverted upon this occasion to the proceeding which was taken by the Local Authorities subsequent upon the Review of August 1839, when Lieutenant Colonels of Officers promoted to be Major Generals and rendered thereby ineligible for Regimental commissions, were filled up in accordance with the practice of the Royal Army.

¶ 2. Having again considered this subject, we have resolved to adhere to the practice of Her Majesty's Army in the Colonies, by which the number of Field Officers for Regimental Duties is maintained at the established strength. We accordingly desire that the Major Generals holding the Regimental Rank of Lieutenant Colonel be retained as Supernumeraries to their respective Corps, and that effective Lieutenant Colonels be promoted in their room.
